Replacement of part 90)
by part 88 to revise) PR Docket 92-235
the Private land mobile)
Radio Services and Modify)
the Policies Governing them)

To : The Commission

Ellingford Bros. Inc. submits its comments in response to the
Commission's Notice of Proposed Rule Making in this Proceedings.

1. area private land mobile system and we have over \$100,000.00 in our system and in this poor economy it would not be possible for us to replace our system, as we use over 50 mobil units in our operation.
2. With the reduction in the power out put in the enw proposal's it would be very difficult for us to operate in our mountain area. We would need an extensive number of repeater sites which would be very hard to find and get permission to use, and we would still have poor reception in a lot of the area.
